Typographia & Unita Furnishings

With a focus on high-end products, TABISSO develops original furnishing solutions that stir the imagination. Typographia is a unique collection of typographic lounge-chairs representing all the letters from A-Z and numbers from 0-9.

A set of floor lamps covering more than 25 punctuation marks completes the collection. The playful yet chic aesthetic of typographia enables users to communicate a message, tone or style that goes beyond the objects themselves.

Unita complements the more playful Typographia range with its sleek and simple design and high quality detailing. Including a range of side tables and ottomans, Unita is available in a diverse range of upholstery, shell and base finishes.

Designed and manufactured in Saint Nazaire, France, Tabisso's design furniture is now available in Australia through Dezin Interiors.

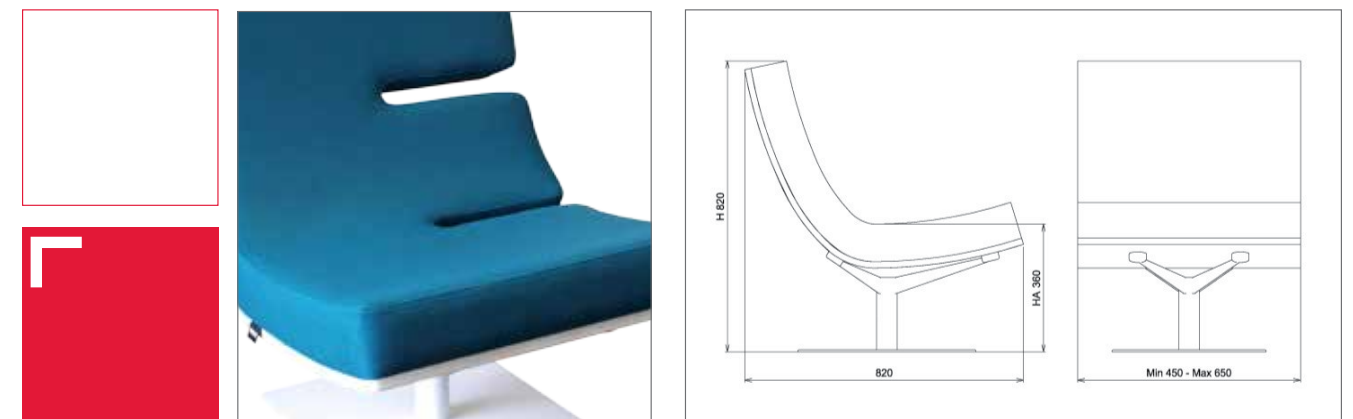

The unique collections include:

- **Typographia Lounge Chairs available in letters and numbers**
- **Typographia Floor Lamps available in punctuation marks**
- **Unita Lounge Chairs**
- **Unita Side Tables**
- **Unita Ottomans**

Please browse our collection online or contact our office for more detailed specifications.
